Feeding Directions

Feed as the sole ration to young pigs.

CAUTION

Do not feed to sheep due to copper levels in this feed.

Always provide a source of fresh clean water, and free choice minerals. When making changes in an animals diet, allow a 7 to 10 day transition period. Provide ample feeder space for livestock. Do not feed wet, moldy, or insect infested feed

MEDICATED

This pig starter is designed to be fed as a creep feed for baby pigs before weaning and as a transition feed until the pigs are on a grower feed.
