THE LAKE COUNTY FAIR SUPPORTS THE NATIONAL CODE OF SHOW RING ETHICS

Exhibitors of animals at livestock shows shall at all times deport themselves with honesty and good sportsmanship. Their conduct in this competitive environment shall always reflect the highest standards of honor and dignity to promote the advancement of agricultural education. This code applies to junior as well as open class exhibitors who compete in structured classes of competition. This code applies to all livestock offered in any event at a livestock show. In addition to the "IAFE National Code of Show Ethics," fairs and livestock shows may have rules and regulations which they impose on the local, county, state, provincial and national levels.

All youth leaders working with junior exhibitors are under an affirmative responsibility to do more than avoid improper conduct or questionable acts. Their moral values must be so certain and positive that those younger and more pliable will be influenced by their fine example. Owners, exhibitors, fitters, trainers and absolutely responsible persons who violate the code of ethics will forfeit premiums, awards and auction proceeds and shall be prohibited from future exhibition in accordance with the rules adopted by the respective fairs and livestock shows. Exhibitors who violate this code of ethics demean the integrity of all livestock exhibitors and should be prohibited from competition at all livestock shows in the United States and Canada.

The following is a list of guidelines for all exhibitors and all livestock in competitive events:

1. All exhibitors must present, upon request of fair and livestock show officials, proof of ownership, length of ownership and age of all animals entered. Misrepresentation of ownership, age, or any facts relating thereto is prohibited.
2. Owners, exhibitors, fitters, trainers, or absolutely responsible persons shall provide animal health certificates from licensed veterinarians upon request by fair or livestock show officials.
3. Junior exhibitors are expected to care for and groom their animals while at fairs or livestock shows.
4. Animals shall be presented to show events where they will enter the food chain free of violative drug residues. The act of entering an animal in a livestock show is the giving of consent by the owner, exhibitor, fitter, trainer and/or absolutely responsible person for show management to obtain any specimens of urine, saliva, blood, or other substances from the animal to be used in testing. Animals not entered in any event which culminates with the animal entering the food chain shall not be administered drugs other than in accordance with applicable federal, state and provincial statutes, regulations and rules. Livestock shall not be exhibited if the drugs administered in accordance with federal, state and provincial statutes, regulations and rules affect the animal's performance or appearance at the event.

If the laboratory report on the analysis of saliva, urine, blood, or other sample taken from livestock indicates the presence of forbidden drugs or medication, this shall be prima facie evidence such substance has been administered to the animal either internally or externally. It is presumed that the sample of urine, saliva, blood, or other substance tested by the laboratory to which it is sent is the one taken from the animal in question, its integrity is preserved and all procedures of said collection and preservation, transfer to the laboratory and analysis of the sample are correct and accurate and the report received from the laboratory pertains to the sample taken from the animal in question and correctly reflects the condition of the animal at the time the sample was taken, with the burden on the owner, exhibitor, fitter, trainer, or absolutely responsible person to prove otherwise.

At any time after an animal arrives on the fair or livestock show premises, all treatments involving the use of drugs and/or medications for the sole purpose of protecting the health of the animal shall be administered by a licensed veterinarian.

5. Any surgical procedure or injection of any foreign substance or drug or the external application of any substance (irritant, counterirritant, or similar substance) which could affect the animal's performance or alter its natural contour, confirmation, or appearance, except external applications of substances to the hoofs or horns or animals which affect appearance only and except for surgical procedures performed by a duly licensed veterinarian for the sole purpose of protecting the health of the animal is prohibited.
6. The use of showing and/or handling practices or devices such as striking animals to cause swelling, using electrical contrivance, or other similar practices are not acceptable and are prohibited.
7. Direct criticism or interference with the judge, fair or livestock show management, other exhibitors, breed representatives, or show officials before, during, or after the competitive event is prohibited. In the furtherance of their official duty, all judges, fair and livestock show management, or other show officials shall be treated with courtesy, cooperation and respect and no person shall direct abusive or threatening conduct toward them.
8. No owner, exhibitor, fitter, trainer, or absolutely responsible person shall conspire with another person or persons to intentionally violate this code of ethics or knowingly contribute or cooperate with another person or persons either by affirmative action or inaction to violate this code of ethics. Violation of this rule shall subject such individual to disciplinary action.
9. The application of this code of ethics provides for absolute responsibility for an animal's condition by an owner, exhibitor, fitter, trainer, or participant whether or not he or she was actually instrumental in or had actual knowledge of the treatment of the animal in contravention of this code of ethics.
10. The act of entering an animal is the giving of consent by the owner, exhibitor, fitter, trainer, or absolutely responsible person to have disciplinary action taken by the fair or livestock show for violation of this Code of Show Ring Ethics and any other rules of competition of the fair or livestock show without recourse against the fair or livestock show. The act of entering an animal is the giving of consent that any proceedings or disciplinary action taken by the fair or livestock show may be published with the name of the violator or violators in any publication of the International Association of Fairs and Expositions, including *Fairs and Expositions* and any special notices to members.
11. The act of entering of an animal in a fair or livestock show is the giving of verification by the owner, exhibitor, fitter, trainer, or absolutely responsible person that he or she has read the IAFE National Code of Show Ring Ethics and understands the consequences of and penalties provided for actions prohibited by the code. It is further a consent that any action which contravenes these rules and is also in violation of federal, state, or provincial statutes, regulations, or rules may be released to appropriate law enforcement authorities with jurisdiction over such infractions.

The Livestock Committee recommends that a Steer weigh at least 550 pounds at initial weigh-in to be able to make the mandatory 1,000 pounds at the final weigh-in. The weight must be entered on the official application. Accepting the application of an exhibitor in no way implies that the animal will qualify for the show and sale.
5. **All Steer must be naturally polled or properly dehorned with no more than 1 inch from the base showing at the time of final weigh-in. There will be no animal dehorned at the initial weigh-in by the Livestock Committee.**

7. If a Steer has lost its center teeth at the time of the initial weigh-in, the exhibitor must submit a breeder's affidavit stating the Steer's actual age. The Steer must not be over 27 months old at the time of show.
8. Steer must weigh at least 1,000 pounds on a zero tolerance scale at the final weigh-in at Fair time and must conform to accepted show standards. All steers must have a minimum of one-fourth (0.25) of an inch of back fat cover OR have a Quality grade of "Select" at the final weigh-in. The amount of back fat, and Quality grade decision of the designee or designees shall be conclusive.

If your animal meets the weight requirements, the manageability, other requirements stated in these rules and all exhibitor responsibilities and qualifications have been met, then you may show and sell.
11. EXHIBITORS ARE REQUIRED TO DEMONSTRATE THEIR ABILITY TO SAFELY CONTROL THEIR ANIMALS. After all animals are checked in, a parade will be held from the assigned area, through the show ring, set up, and back to the assigned area. Each exhibitor shall untie parade and re-secure their animal without assistance. Any exhibitor who fails any part of the foregoing test will be given another opportunity. National Sheep and Goat SCRAPIE ERADICATION PROGRAM EFFECTIVE JULY 1, 2005

	<h2>Requirements for Identification of Sheep and Goats in Shows, Exhibitions, and Fairs</h2>	
---	--	---

This information is presented to clarify the mandatory identification requirements for sheep and goats under the National Scrapie Eradication Program. There are two components of the identification requirements that must be met before sheep and goats are allowed to move into the state or within Florida (intrastate) for shows, exhibitions, and fairs.

1. Premises Identification – Before official individual animal identification tags can be issued, the owner/agent must register the premises on which the animal is located and obtain a premises identification number from USDA.
2. Individual Animal Identification – Once the premises is registered, the owner/agent will receive official individual animal identification tags for identifying each sheep and goat. Applicator pliers will be provided to FFA, 4-H leaders and/or fair/livestock/show committee for assisting exhibitors in application of the official ear tags.

Note: Sheep and goats must be officially identified before commingling with other groups of animals. For registered purebred sheep and goats identified with a permanent official breed registration number, official ear tags are not required. However, upon presentation of such animals for exhibition, a copy of the breed registration certificate must accompany each animal. Regardless of the method of official identification, each animal must be associated with a premises identification number.

The premises must be registered before the exhibitor can receive the official individual ear tag for each animal. The official tags must be applied to the exhibitor's animals prior to presenting them for exhibition. Official ear tags must be affixed by FFA, 4-H leaders or by a representative of the Livestock Show Committee or veterinarian.

2. Official Entry Forms must be postmarked and mailed to the Lake County Fair Office, P.O. Box 221 Eustis, FL 32727-0221, on or before February 1, 2018.
3. The following rabbits may be entered: Buck, Doe. **No neutered rabbits will be shown.**
4. Substitutions, if necessary, must have the approval of the Superintendent. There will be NO substitutions or changes to the entry form after March 15, 2018.
5. Junior & Senior Exhibitors may enter up to three (3) rabbits. Cloverbuds may have one entry. There is no guarantee that all will be able to be shown. The Superintendent will have the authority to cut back on the number of rabbits shown according to the availability of pens.
6. All rabbits will have a number imprinted in their ears upon entry (ink used will wear off and will not harm the animal). This number will be their cage number and will serve as their identification during the Fair.
7. Ownership of rabbits must be vested in the exhibitor no later than January 1, 2018.
8. **Only ARBA recognized breeds can be shown.** No rabbits under 12 weeks will be eligible to show.

ELIGIBILITY:

1. All entries must be bonafide property of the Exhibitor.
2. Exhibitor must be either a 4-H or FFA member in good standing and enrolled in a rabbit project.
3. Cloverbuds (Ages 5 – 7 as of September 1, 2017) cannot compete for awards. For Cloverbuds there will be an educational exhibit with a judge in attendance. All other rules of the Rabbit Show (including delivery and pick-up times) apply.

HEALTH:

1. No sick or diseased rabbit will be allowed in the Showroom. It is suggested that each exhibitor check his or her rabbit's ears for canker (a few drops of baby oil in the ears a few weeks prior to the show will help to prevent disqualification of your animal). Any entry rejected on entry day for sickness or disease will not be allowed to return to the Showroom.
2. Any rabbit showing signs of pregnancy will be palpated. If pregnant, entry will be disqualified.

ARRIVAL:

1. Rabbits will be received between 2:00 P.M. and 6:00 P.M. on Wednesday, April 4, 2018.
2. Pens will be assigned by the Superintendent upon arrival.

RELEASE:

1. All exhibits must stay until the removal date and time for that exhibit. If an animal is removed early all premiums will be forfeited and the exhibitor will not be allowed to show any animal the following year.
2. Rabbits must be removed from the Showroom between 10:00 P.M. and 11:00 P.M. on Saturday, April 14, 2018 closing night of the Fair. Lake County Fair is not responsible for any rabbits that are not removed at this time.

JUDGING:

1. Judging will begin at 5:00 P.M. on Saturday, April 7, 2018.
2. The decision of the Judge will be final.
3. The Modified Danish System for judging will be used in making awards.
4. Judge's remarks will be recorded by the Show Secretary.
5. Paper stickers, showing the rabbit's placing, will be placed on front of the cage cards and ribbons awarded to Exhibitors at the time of judging.

GENERAL:

1. The Lake County Fair Association will not assume any responsibility whatsoever for loss of rabbits in any manner.
2. Rabbits may not be bred in the Showroom.
3. No toys, blankets or hay will be allowed in cages.
4. Rabbit pens cannot be opened except by Superintendent.
5. Rabbits will be fed and watered daily by the Fair Association. No Exceptions. Any water bottles added to the cages must be attached to the outside of the cages so that the Rabbits may be watered by Fair Association when their water runs low.
6. Exhibitor may place For Sale sign on pen with their phone number. NO sales transactions may take place until after exhibitor has checked out at release time. Poultry or Barn Superintendent will not be responsible for transaction.
